Field Trip No. 34. Yanchep road, W.A. 18-22/11/52.

J.H. Calaby

All specimens in this box, collected between Wanneroo → and Yanchep on the ordinary Perth to Yanchep Road.

18 Nov. 1952.

Wanneroo. 12602

✓ Collected at 12606. 23 Acridids, 1 fly.

Dry scler. forest. Eucs. almost all Jarrah but odd Marri.
Cirphula carbonaria, Cedarinia sp., Goniaea sp., Urnisa
Some Banksia and [illegible] an odd Casuarina. [illegible] Eucs. not
rugosa, Genus nov. 12(?), Azelota sp.
dense enough to form a closed canopy. Understratum of small scler. shrubs. Very sandy soil. Some dried off grass on roadside.

Coll. at 12612. 16 Acridids, 1 Eumastacid, 1 fly.
Cedarinia sp., Coryphistes sp., Goniaea sp., Phaulacridium
✓ Dry scler. forest. All Eucs. Jarrah. Plentiful scler.
vittatum, Urnisa rugosa, Peakesia brunnea,
shrubs. Both Eucs.* ✓ and shrubs, much taller and denser than at
Austroicetes vulgaris corallipes, Poedina nana
12606. Dried off grass on roadside.

*Eucs. form closed canopy here.

22 Nov. 1952.

Wanneroo. 12730. → 21 Acridids

✓ Coll. at 12732. Similar to 12606 but area has been
Goniaea sp., Phaulacridium vittatum, Escarna includens,
subjected to grazing and shrubs are [illegible] less dense.
Peakesia brunnea, Austroicetes vulgaris corallipes
There is also much more grass.

Coll. at 12734. 1$\overset{4}{2}$ Acridids, 2 flies [flies at bottom of box.]
Cedarinia sp., Coryphistes sp., Goniaea sp., Escarna includens, Peakesia brunnea
✓ Similar to 12606 and only few hundred yards from it.

Coll. at 12739. 18 Acridids
Cedarinia sp., Coryphistes sp., Urnisa rugosa, Escarna
✓ A Heath community fairly dense on limestone country.
includens, Peakesia brunnea, Austroicetes vulgaris corallipes.
Much bare limestone. Some dried grass on roadside
no shrubs taller than 3 feet.

Coll. at 12740.

Two communities → 11 Acridids.
Cedarinia sp., Coryphistes sp., Goniaea sp.,
✓ **A.** A limestoney ridge but soil surface sandy
Heteropternis obscurella
with little limestone showing. A dry scler. forest

[P.T.O.]

with the only Euc., tuart. Not a closed canopy. Small scleroph. shrubs fairly plentiful but a fair amount of grass.

B. 6 Acridids

Goniaea sp., Peakesia brunnea

✓ Similar to and contiguous with 12612.

B, approx. $\frac{1}{4}$ mile from A; and down in valley. Some dried grass on roadside.

Field Trip no. 34. Yanchep road, W.A.
18-22/11/52.
